This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (see ADDRESSES).

CMS-370 and CMS-377      Health Insurance Benefits Agreement and Ambulatory Surgical  
Center Request for Certification or Update of Certification  
Information in the Medicare Program

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

#### Information Collection

1. Type of Information Collection Request: Revision of a currently approved collection; Titles of Information Collection: Health Insurance Benefits Agreement and Ambulatory Surgical Request for Certification or Update of Certification Information in the Medicare Program; Use: The CMS-370 is used to establish eligibility for payment. This agreement, upon submission by the ambulatory surgical center (ASC) and acceptance for filing by the Secretary of Health & Human Services, shall be binding on both the ASC and the Secretary. The agreement may be terminated by either party in accordance with regulations. In the event of termination, payment will not be

available for ASC services furnished on or after the effective date of termination.

The CMS-377 is used to collect facility-specific characteristics that facilitate CMS' oversight of ambulatory surgical centers (ASCs). The CMS-377 is submitted by ASCs when they request initial certification of compliance with the ASC conditions for coverage or to update an ASC's existing certification information. It is also used by State agencies who conduct certification surveys on CMS' behalf to maintain information on the facility's characteristics that facilitate conducting surveys, e.g., determining the size and the composition of the survey team on the basis of the number of operating and procedure rooms and the types of surgical procedures performed in the ASC. Form Numbers: CMS-370 and CMS-377 (OCN: 0938-0266); Frequency: Occasionally; Affected Public: Private Sector - Business or other for-profit and Not-for-profit institutions; Number of Respondents: 5,449; Total Annual Responses: 1,833; Total Annual Hours: 633. (For policy questions regarding this collection contact Erin McCoy at 410-786-2337.)

Dated: March 28, 2014.
